

H-Pans™ High Heat Food Pans

Reduce handling and save expense with one pan that can go from prep to cooler to oven to steam table. H-Pans are designed to Gastronorm GN specifications. Unlike metal pans, H-Pans are safe for use in heating and holding applications. Ideal for heated carts, steam tables and chafing dishes. H-Pans have both standard and metric graduation markings to promote easy inventory management.

Colors: Amber (150), Black (110).
H-Pans are made of FDA approved materials and are designed to CEN Gastronorm Standard EN 631-1. Amber color may vary.

Pans stack neatly, without wedging or sticking.

Uniform 1/2" (1,27 cm) flange ensures a smooth fit in prep tables and food bars.

Great for flash freezing and reheating.

Made from FDA approved materials that withstand temperatures from -40°F to 300°F (-40°C to 149°C).

Non-stick smooth interior surface increases yields and promotes easy cleaning.
